Operable Unit No. 15 Proposed Plan Comments

Mr. Richard J. Ray, Project Manager

Operable Unit No. 15

EG&G Rocky Flats, Inc.

Thank you for the opportunity to review the draft Proposed Plan for Operable Unit No. 15.

I am well pleased with the response to my comments on earlier drafts. I have a few more

issues to raise with the latest draft. They are attached with this letter.

If you should have any questions or require any additional explanation, please contact
me through extension 4013.

William N. Fitch
OU 15 Project Manager
Environmental Restoration

**W. N. Fitch's Comments on the OU-15 Draft Proposed Plan
Dated March 14, 1995**

Major Items

Page 4, column 2, line 10 — The phrase "... evaluating if unacceptable levels of risk exist to persons working inside the buildings." is not correct. I think it should say "... evaluating if the IHSSs pose unacceptable levels of risk to the workers."

Page 4, The ARAR's Box — I generally like the appearance and content of the box except:

- (1) Do we need to distinguish between ARARs and TBCs?
- (2) Can we dismiss Sec. 265.381 and Sec. 265.404? That is, did we demonstrate that the solid waste removed was not a hazardous waste or is our position that none was removed?
- (3) Why are 29CFR1910.96 (e), (f), (g), (h) and (i) missing?
- (4) Is 40CFR196 correct or should it be 40CFR191?

Page 5, column 2, line 11 — Suggest inserting "... without additional controls." after "radiation protection standards."

NITS

The following are suggestions and are not major problems...

Page 1, column 1, para. 3, line 7 — I think that the word "large" is a better choice than "larger."

Page 1, column 2, para. 2, line 1 — I would insert "... radiation control ..." after "The ..."
